

Sample Primary Schedule

Note: There are many structures in Kindergarten that would be plugged into these schedules such as calendar, songs, chants, nursery rhymes, etc. In addition, blocks of time may vary depending on grade level and will likely shift as the school year moves forward. These times are approximate and this should be considered a “sample” schedule. Teachers may choose to alternate science and social studies units, which would give students an extended period of time to deepen understandings. **There are many different ways to construct schedules to ensure balance in literacy opportunities for students to grow as readers and writers.**
